## Objective

Junior Web Developer

## Education

2016.Oct - 2020.Oct

**Germany · University of Bremen**  
**Master of Science (M.Sc.)**

Digital Media

- **An "E-cigarette" For Your Smart phone: Understanding The Impact Of Greyscale Mode On Smart phone Usage** (Master Thesis, 2018.Aug - 2020.Oct)
  - Tried to investigate whether the user behavior of Android phone users in grayscale mode is different from the behavior in normal colour mode.
  - Due to the data loss problem during upload, it is impossible to prove from the data whether the grayscale mode can effectively reduce smart phone addiction level.
  - But judging from the results of the users' nomophobia questionnaire, most users have a trend of decreasing in terms of smart phone addiction level.
- **Navigation Failures** (Master Project, 2017.Aug - 2018.Apr)
  - Compare user behaviour changes between reality and VR environment, in terms of smart phone navigation interaction.
  - Result: incomparable between reality and VR environment, but provided suggestion for further studies.
  - Mainly involved in iOS navigational App implementation with Google map API.

2012.Sep - 2016.Aug

**China · Guangdong University of Technology**  
**Bachelor**

Digital Media Technology

## **Work Experience**

2019.Sep - Now (1 year 4 months)
