An "E-cigarette" For Your Smart phone: Understanding The Impact Of Greyscale Mode On Smart phone Usage

德国·硕士论文   Germany·Master Thesis

尝试调查安卓手机用户在灰度模式下的用户行为是否会与普通显示模式下的行为有所不同。由于上传时的数据丢失问题，无法从数据上证明灰度模式是否能有效减少手机成瘾的程度。但是从用户调查问卷的结果来看，大部分用户都有成瘾减少的趋势。

Tried to investigate whether the user behavior of Android phone users in grayscale mode is different from the behavior in normal colour mode. Due to the data loss problem during upload, it is impossible to prove from the data whether the grayscale mode can effectively reduce smart phone addiction level. But judging from the results of the users' nomophobia questionnaire, most users have a trend of decreasing in terms of smart phone addiction level.

2017.08 - 2018.04   2017.Aug - 2018.Apr

Navigation Failures

德国·硕士项目   Germany·Master Project

对比用户在现实环境与虚拟现实环境中的手机导航交互行为。结论是无法比较，但是为后续实践提供建议。

Compare user behaviour changes between reality and VR environment, in terms of smart phone navigation interaction. The result is that it is incomparable between reality and VR environment, but provided suggestion for further studies.
